Exam : MS-700

Title : Managing Microsoft Teams

Version : DEMO

1. Topic 1, Contoso, Ltd

Case study

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirement, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

Overview

Contoso, Ltd. is a pharmaceutical company that has 3,000 users in offices across North America.

Existing Environment

Active Directory

The network contains an on-premises Active Directory domain. All user accounts are in departmental organizational units (OUs).

Microsoft Office 365

All users are assigned a Microsoft Office 365 E5 license and are enabled for the following services:

- ⇒ Microsoft Yammer
- ⇒ Microsoft Exchange Online
- ⇒ Microsoft SharePoint Online
- ⇒ Microsoft OneDrive for Business
- ⇒ Azure Active Directory (Azure AD)
- ⇒ Azure AD
- ⇒ dynamic group membership

Microsoft Skype for Business

Contoso has an on-premises deployment of Microsoft Skype for Business Server 2015. All the latest cumulative updates are installed on all the servers.

The following services are used in Skype for Business Server 2015:

- ☞ Meetings
- ☞ PSTN calling
- ☞ Instant messaging (IM)
- ☞ Federation to external companies

Departments

Contoso has the following departments:

- ☞ IT
- ☞ Sales
- ☞ Human resources (HR)
- ☞ Research and deployment (R&D)

All groups are created by using dynamic group membership that use the department attribute.

Requirements

Business goals

Contoso identifies the following business goals:

- ☞ Migrate the maximum number of users to Microsoft Teams.
- ☞ Minimize administrative effort.

Device requirements

Contoso identifies the following device requirements:

- ☞ Replace Skype for Business IP phones with Microsoft Teams phones.
- ☞ All Microsoft Teams phones must be set to lock automatically after 60 seconds.

Meeting and Live Event Requirements

Contoso identifies the following meeting and live event requirements:

- ☞ Requirement1: Guest users must be able to join live events.
- ☞ Requirement2: Guest users must always wait in a meeting lobby.
- ☞ Requirement3: Contoso users must always bypass the meeting lobby when they join by using the Microsoft Teams client.
- ☞ Requirement4: After the upgrade to Microsoft Teams, all meetings must be scheduled by using Microsoft Teams.

Calling Requirements

Contoso identifies the following calling requirements:

- ☞ Migrate all existing auto attendants and response groups to Office 365.
- ☞ Minimize the on-premises PSTN infrastructure.

Technical Requirements

Guest users must be prevented from making private calls.

Security Requirements

Contoso has the following security requirements for the Microsoft Teams deployment:

- ☞ The number of ports allowed on the company's firewall must be limited.
- ☞ Team names must be prevented from containing the name of any products produced by Contoso.
- ☞ Users in the R&D group must be prevented from sending chat messages to users in other departments.
- ☞ To meet the company's compliance policy, users in the sales department must continue to use on-premises Skype for Business for IM and calling only.

Pilot Project

Contoso begins a pilot project for the upgrade to Microsoft Teams.

You identify the following issues during the pilot project:

- ☞ Microsoft Teams users report that they often receive continuous notifications from the Microsoft Teams client for 20 minutes.
- ☞ Two pilot users in the HR department report that they are not members of the HR team.

You need to configure the environment to meet the security requirements for the R&D group.

What should you do first?

- A. Start the information barrier policy application.
- B. Add an identity provider.
- C. Create two information barrier segments.
- D. Create one information barrier policy.

Answer: C

Explanation:

Create information barrier segments first, then create information barrier policy based on the segments then start the information barrier application.

Reference: <https://docs.microsoft.com/en-us/microsoft-365/compliance/information-barriers-policies>

2.You need to configure the user accounts of the sales department users to meet the security requirements.

What should you do for each user?

- A. From the Microsoft Teams admin center, set the Microsoft Teams upgrade policy to Skype for Business with Teams collaboration and meetings coexistence mode.
- B. From PowerShell, run the Grant-CsTeamsUpgradePolicy -PolicyName SfBWithTeamsCollab cmdlet.
- C. From PowerShell, run the Grant-CsTeamsUpgradePolicy -PolicyName Islands cmdlet.
- D. From the Microsoft Teams admin center, set the Microsoft Teams upgrade policy to Skype for Business coexistence mode.

Answer: A

Explanation:

Reference: <https://docs.microsoft.com/en-us/microsoftteams/teams-and-skypeforbusiness-coexistence-andinteroperability>

3.You need to resolve the notification issues identified during the pilot project.

What should you modify?

- A. the global meeting policy
- B. the global messaging policy
- C. the org-wide Teams settings
- D. the app permission policy

Answer: B

Explanation:

<https://docs.microsoft.com/en-us/microsoftteams/messaging-policies-in-teams>

4.You need to configure the environment to meet the technical requirements for guest users.

What should you modify from the Microsoft Teams admin center?

- A. the global app permission policy
- B. Guest access in Users
- C. the global meeting policy
- D. the global messaging policy

Answer: B

Explanation:

Microsoft Teams admin center > Org-wide settings > Guest access > Make private calls = off.

5.You need to resolve the membership issues for the two pilot users.

What should you do?

- A. Modify the department attribute of both users.
- B. Invite both users to the HR team.
- C. Add both users to the HR group.
- D. Modify the privacy level of the HR team.

Answer: A
